

Ahsan

Senior ASP.NET Core Developer

SUMMARY

Experienced ASP.NET Core Developer with 4+ years of experience building scalable web applications and RESTful APIs using C#, ASP.NET Core, Entity Framework Core and SQL Server.

TECHNICAL SKILLS

C#

ASP.NET Core

ASP.NET Core Web API

Entity Framework Core

SQL Server

LINQ

Dependency Injection

REST APIs

JWT Authentication

ASP.NET Core Identity

Swagger

OpenAPI

Git

GitHub

React

Docker

Unit Testing

xUnit

Azure

CI/CD

EXPERIENCE

Senior .NET Developer

Software Technologies Ltd.

2022 - Present

- Designed and developed RESTful APIs using ASP.NET Core.
- Developed scalable backend services using C#.
- Implemented CRUD operations using Entity Framework Core.
- Designed SQL Server databases and optimized database queries.
- Used LINQ for efficient data access.
- Implemented dependency injection throughout ASP.NET Core applications.
- Implemented JWT authentication and role-based authorization.
- Integrated ASP.NET Core Identity.
- Created and maintained Swagger/OpenAPI documentation.
- Used Git and GitHub for version control.
- Developed frontend features using React.
- Containerized applications using Docker.
- Created automated unit tests using xUnit.
- Deployed applications to Microsoft Azure.
- Worked with CI/CD pipelines.
- Investigated and fixed production issues.

PROJECTS

HireSmart Recruitment Platform

- Developed an ASP.NET Core Web API backend.
- Implemented authentication and role-based authorization.
- Created Recruiter, Candidate and Admin modules.
- Implemented job management and applications.
- Integrated SQL Server using Entity Framework Core.
- Added Swagger/OpenAPI documentation.
- Implemented JWT authentication.
- Built a React frontend.
- Integrated an AI-based resume and job matching system.

Inventory Management System

- Developed ASP.NET Core Web API.
- Implemented CRUD operations.
- Used EF Core and SQL Server.
- Added JWT authentication.
- Added Docker support.
- Created unit tests using xUnit.
